Re: Proposal for Engagement as Counsel

Dear Members of the Board of Supervisors:

Thank you very much for considering the law firm of Gardner, Brewer, Martinez-Monfort, P.A. ("GBMM") to represent the Easton Park Community Development District (the "CDD") in the capacity as general counsel. We appreciate the opportunity to present this proposal for general counsel services.

Our firm has many years of experience representing community associations and community development districts – including Cheval West CDD and Arbor Greene CDD. We pride ourselves on our client service and ability to be available to our clients. To that end, we approach new representations thoughtfully with the intent of never letting quantity of clients impact our quality of service. We provide this proposal because we are confident we can provide Easton Park CDD with top tier representation.

Our community association team is comprised of the following individuals:

**J. Stephen Gardner, Esq.** – Mr. Gardner is the senior partner at Gardner Brewer Martinez-Monfort, P.A. and has been involved in community association law for over 40 years. He has been practicing in Tampa since the early 1970s, principally in the area of real estate and community association law. He has formed and drafted documentation for many subdivisions, condominiums, CDDs and other real estate developments. He has also represented community associations and CDDs for many years, including Cheval West CDD which Mr. Gardner helped form and has represented since. He has been AV rated for over 30 years by Martindale Hubbell legal rating service and has been selected as one of *Florida Trend* magazine's Legal Elite and Super Lawyer in Florida.

**Amanda M. Uliano, Esq.** – Ms. Uliano has worked with the GBMM Community Association Team since 2013 and has taken on primary representation of many of our community association clients, including Arbor Greene CDD. A graduate of the George Washington University and Duke

University School of Law, Ms. Uliano has a background in complex commercial litigation and has assisted our association clients on various litigation matters as well as general counseling.

**Deva Arthur, FRP** - Ms. Arthur has worked in the legal field for over 30 years. She graduated from Seton Hall University and received her degree in paralegal studies from Keiser College. She has been working with community associations at our firm since 2008 and has a wonderful working relationship with the managers and board representatives.

**Gwen Lisboa, FRP** – Ms. Lisboa has worked with Steve Gardner as his paralegal for over 35 years. She has acquired a significant knowledge of the law, in general, and those statutes affecting community development districts and community associations, in particular. She is an excellent document drafter and has been deeply involved in the preparation of numerous declarations, amendments, contracts, rules and regulations, etc.

Our firm also consists of additional lawyers versed in land use, corporate matters and litigation that allows us to provide our clients with full service representation. For our CDD clients, we are able to attend meetings as needed, negotiate relationships with vendors and neighborhood associations, review and draft all required notices, contracts, records and the like. We would welcome the opportunity to discuss our qualifications and services in more detail with you.

If retained as counsel, our legal services will be performed at normal hourly rates for attorneys, which currently are in the range of \$325 - \$400 and paralegals currently range \$185 - \$200. All hourly rates are subject to change from time to time generally at the beginning of each year. Our fees for the services to be rendered will be based upon the time spent by our attorneys and paralegal assistants and multiplied by our standard fee rates in effect at the time the services are performed. We are mindful of the costs of legal services and understand that every client wishes to avoid unnecessary expense. Accordingly, we will seek at all times to represent you efficiently and effectively. Whenever practicable, we will have the attorney or paralegal with the lowest hourly rate, but who is best qualified to handle your matter, perform the work required.

The CDD would also be responsible for all costs that we incur in the course of our representation, including, for example, copying, postage, courier services, filing fees and other out-of-pocket expenditures. We will send a monthly invoice detailing our fees and cost disbursements, and unless written arrangements have been made to the contrary, each invoice will be payable upon receipt. Unless additional detail is requested, our invoices will reflect the date services are performed and a brief description of those services. If payment is not received within 30 days from the date of the invoice, interest at the rate of 1% per month shall accrue on the unpaid balance.

Although we do not wish to be overly formal in our relationship with you, we have found it a helpful practice to confirm with our clients the nature and terms of our representation. If you find these proposed arrangements satisfactory, please sign a copy of this letter and return it to us.

Re: Easton Park Community Development District

Dear Mark:

On behalf of the law firm of Persson, Cohen & Mooney, P.A., please allow this correspondence to serve as our proposal to provide District Attorney services for the Easton Park Community Development District. Our firm and I appreciate the opportunity of being considered for the position.

Persson, Cohen & Mooney, P.A. currently represents thirty-one (31) community development districts across southwest Florida, with our primary focus on resident-controlled districts. In addition, our firm serves as counsel to several other local governmental entities and special districts including Holiday Park Recreation District, Tri-Par Estates Park and Recreation District and various fire districts. Further, Ms. Fernandez is the City Attorney for the City of Venice and Ms. Mooney is the

Lakewood Ranch 6853 Energy Court Lakewood Ranch, Florida 34240 Venice 236 Pedro Street Venice, Florida 34285 Town Attorney for the Town of Longboat Key, while Ms. Kardash is the Town Attorney for the Towns of Indian Shores and Belleair Shore.

I have been practicing law for over twenty years and have been an attorney with the firm for over seven years. During that time, I, and the other members of the firm, have represented numerous local government clients throughout the southwest Florida region. In fact, most of our firm's attorneys have been practicing local government law for well over ten years. We currently have seven attorneys working full-time for our firm while Mr. Persson is semi-retired, but maintains an "Of Counsel" affiliation with the firm. In addition, Persson, Cohen & Mooney, P.A., has two legal assistants, one working in each office.

As noted in our firm's letterhead, I am Board Certified by the Florida Bar in City, County and Local Government Law as are Ms. Mooney, Ms. Fernandez, and Ms. Kardash. Currently, approximately ninety-five percent (95%) of my personal practice is dedicated to local government work for the firm's community development district, municipal, fire district, and other special district clients. My legal practice, along with the practices of my colleagues, all concentrate on the areas related to the potential representation of the Easton Park Community Development District including, but not limited to, attending Board meetings, preparing and reviewing contracts and other legal documents, providing legal opinions, research, and handling matters related to public records and the Sunshine Law. In addition, my partner, Mr. Cohen, has performed numerous bond validations and represented multiple community development districts in the issuance and refinancing of bonds as well as the implementation and revisions to assessments for both bond debt and operations and maintenance.

If given the opportunity to represent the District, I would serve as primary counsel and Mr. Cohen and Ms. Kardash would serve as my primary back-ups. The three of us work out of our firm's Lakewood Ranch office. I would respectfully submit that our relatively close proximity to the District as well as our firm's background in representing community development districts and other local government entities would be an asset and benefit to our representation of Easton Park Community Development District. In addition, as you will see on my enclosed résumé, my undergraduate degree is from the University of Florida in Civil Engineering and I have prior work experience in the Office of General Counsel with the Southwest Florida Water Management District, a combination which I believe to often be beneficial to our community development district clients in working with their District Engineer and handling many of their issues.

Our firm would propose to provide services to the District on an hourly basis. As shown in the requested Rate/Fee Sheet, our firm's rate of compensation for all hourly work that we would perform including, but not limited to, contract review, research, consulting and attendance at meetings is currently \$275.00 per hour for attorney time (applicable to all attorneys in our firm). We do not bill clients for incidental costs. Bond related transactions would typically be billed on a flat rate.

I have included résumés of Mr. Cohen, Ms. Kardash, and myself. Also, a list of the firm's community development district clients has been provided, along with a list of other local

governments Persson, Cohen & Mooney, P.A., currently represents. In addition, a representative sample of references with contact information has also been provided.

Persson, Cohen & Mooney, P.A., would like to thank you and the Board for your consideration of our firm's proposal. We look forward to the opportunity to discuss our potential representation of the Easton Park Community Development District further and to answer any additional questions you may have at the Board of Supervisors meeting on April 15.

Sincerely,

PERSSON, COHEN & MOONEY, P.A.

#### Re: Easton Park Community Development District Proposal for District Counsel Services

Dear Mark:

Our law firm is pleased to have this opportunity to submit a proposal to serve as District Counsel for the Easton Park Community Development District. Our law firm's practice is focused on the representation of Community Development Districts ("**CDD**"). We currently represent over 100 CDDs located throughout west central Florida, and are intimately familiar with all phases of CDD operations, from formation, through the issuance of bonds and construction of capital infrastructure, the ongoing representation of resident-controlled districts, and guiding numerous CDDs during bond refundings to achieve savings for the residents.

We are enclosing biographical information about the firm and our lawyers, which is also available on our firm's website at <u>www.srvlegal.com</u>. With respect to legal fees and costs, we understand that the Board expects District Counsel to provide legal services in a cost effective and efficient manner. Because of the firm's extensive experience with CDDs, we can provide legal services efficiently and in a cost-effective manner, and we are proposing a firm rate of \$285/hour for the attorneys that would represent Easton Park CDD.

On behalf of the firm, we appreciate this opportunity to submit a proposal to serve as the Easton Park CDD's District Counsel and look forward to meeting with you and the Board of Supervisors in the future.

Sincerely ohn M. Vericker

Reference: Agreement with Easton Park Community Development District dated January, 2020

Dear Sirs and Madams:

You were notified on December 1, 2020 that the Easton Park Community Development District (the "District") is acting to evoke paragraph 17c of the Agreement referenced above, for termination with cause due to breach by Envera. Your company has had an extended period of time to cure said default. As no action has been taken to cure, the District hereby terminates the Agreement.

The provision of the Agreement giving rise to the default is paragraph 5, which provides in part that "Contractor shall replace or repair all equipment installed by the Contractor free of charge to the District.... Contractor hereby covenants to the District that it shall perform the Work... in an expeditious and economical manner consistent with the best interest of the District" On a number of occasions over the past year, the equipment has been found to be not operating when needed by the District and has not been expeditiously repaired. This lack of inspection and timely repair by Envera has substantially reduced the effectiveness of the system.

Thank you for your attention to this matter.

Sincerely,

Dan Molloy District Counsel

Re: Agreement with Easton Park Community Development District dtd 1/2020

Dear Mr. Molloy,

I am in receipt of your March 22, 2021 correspondence, which seeks to terminate the parties' Agreement for Security System Installation and Operation/Maintenance Services (the "Agreement"). You have previously expressed a desire to terminate that Agreement for cause on December 1, 2020, stating that you believed repairs had not been expeditiously. On December 11, 2020 I advised that that positon was not accurate, and asked that you advise if there were any issues in need of repair. I did not hear back.

Your more recent communication appears to make the same allegation. It is, of course, impossible to respond to either letter because there is no specific information that I am able to respond to. I have conferred with Envera and they have reported that the turn-around time for the few repairs which have been necessary is within both the company's standard repair time, and within the industry standard for similar services. All of the repairs which have been conducted have been at no charge to your client. On the basis of the above, Envera does not accept the attempt to terminate the agreement for cause.

When I reviewed your client's service history with Envera, I was surprised at the fact that there were very few interactions. Your client has reported only a handful of issues, and those were each responded to quickly. From the service history that I am seeing, there does not appear to be any ongoing problem at the community with an excessive number of service issues, or with any delay in responding to reported issues. If your client is discovering issues that need to be addressed, and is not reporting them, that may be the cause of a perception that Envera's response time is slow. Envera is alerted to the existence of some issues with equipment, but not all. So it

is incumbent upon a community to timely report issues that they would like to have repaired. In any event, I believe that better lines of communication may alleviate any perceived issues. I am happy to discuss further, or to set up a direct contact with Envera that your client can communicate with.

Please contact me if you have any questions.

Sincerely, 1 \* Daniel C. Guarnieri, Esquire
